

PRAXIS® BOOT CAMP

powered by

In partnership with Teach.org of North Carolina, Study.com and Enhanced Prep are offering boot camps to help students prepare for their official Praxis® Tests. These boot camps provide an in-depth exploration of the format and content of the Praxis® Test in order to help students **pass the first time.**

INCLUDED IN EACH CAMP:

- 12 hours of live instruction, with a customizable schedule to fit your course needs.
- Access to Study.com's self-paced Praxis® program.
- Opportunities to work with Praxis® Test experts.
- Opportunities to learn strategies to identify question types quickly and improve pacing.

These Praxis® boot camps utilize a 3-pillar teaching approach in order to help students prepare a game plan to tackle their test. This approach helps students better optimize preparing for their test, improving their chances of passing and saving time and effort.

This boot camp is intended to be completed within 2-4 weeks of a student's official testing date.

THE 3-PILLAR APPROACH

CONTENT

Every test prep journey begins with a diagnosis of a student's individual strengths and weaknesses. Exams test a wide variety of concepts. We identify which concepts will be most valuable for students to focus on so they can maximize their accuracy on test day.

STRATEGY

Tutors provide each student with different tips and tricks to help them save time on the test without sacrificing accuracy. Equipped with these strategies, students will be able to see a question and know the best approach to answer it and avoid pesky test traps.

GAME PLAN

Tutors work with students to prepare a game plan that works for them. Game plans detail how much time to spend on each section of the test, the order in which they should take the test and more. Students leave the course prepared to achieve their best score.
